

STAP Equipment List

Updated as of 12/13/2025

This list provides information regarding the approved devices currently provided by STAP vendors. Please contact the [STAP Vendor Specialist](#) if you have questions regarding the approval of a specific device not listed below or if there are devices that need to be modified or discontinued. Refer to [Vouchers and Voucher Amounts](#) for key specifications required for a device for each voucher category.

STAP Vendors will be reimbursed for approved equipment based on the lessor of the Voucher Value or Equipment Value as stated in the below list, or STAP Vendor's selling price. In situations where one device is claimed as two or more voucher categories the reimbursement amount will be the lessor of the combined voucher category values, equipment value, or selling price.

Speech Generating Devices (SGDs) must include software with the device to be considered eligible for reimbursement.

This list is not intended to establish a vendor's selling price for allowable equipment under the STAP.

Voucher Category	Manufacturer	Equipment	Voucher Value	Equipment Value
Amplified Cell Phone	Lively	Jitterbug Flip2	\$100.00	\$99.99
